DR. WILLIAM MILLER, PRESIDENT

Dr. William (Willie) Miller has served on the CAR Board of Directors since 2010 and was a member of the Board of Chancellors of the American College of Radiology from 2013-2015.

Dr. Miller was Chief of Neuroradiology at The Ottawa Hospital and Director of MRI at The Ottawa Hospital Civic Campus from 2001-2006. From 2008-2015, he served as Deputy Chief and Chair of the Diagnostic Imaging at The Ottawa Hospital, after his term as Interim Chief and Chair of the same department from 2006-2008. Dr. Miller is currently an Assistant Professor at the University of Ottawa.

Dr. Miller graduated from the Faculty of Medicine at the University of Manitoba. He completed a rotating internship at McGill University in Montreal and then went on to practice as a family physician for 13 years before undertaking a four-year radiology residency at the University of Missouri. He completed his training with a two-year neuroradiology fellowship at the University of Toronto and has been practicing neuroradiology in Ottawa since 1999.

Dr. Miller’s current areas of interest include quality and safety, radiation safety, clinical decision support and appropriateness of diagnostic imaging, health care system sustainability, as well as the gamut of diagnostic neuroradiology.

Dr. Miller is an avid photographer, golfer, and skier. He is married to a pediatric radiologist, Dr. Julie Hurteau, and is the proud father of their son, Jacob.

DR. JACQUES LÉVESQUE, PAST PRESIDENT

Dr. Jacques Lévesque completed his medical education in 1975. After he graduated in diagnostic radiology at McGill University in Montreal in 1981, he worked at the Hôpital St-François d’Assise in Quebec City (1981–1991) and at the Centre hospitalier de l’Université Laval in Ste-Foy (1991–1994). From 1998 to 2004, Dr. Lévesque was Chief of the department of radiology at the Centre Hospitalier Universitaire de Québec. He is currently a Clinical Professor in radiology at the Université Laval and President and co-owner of the Clinique radiologique de la Capitale in Quebec City.

Involved in the establishment of new technologies in his region and in the province of Quebec, Dr. Lévesque is responsible for the implementation of PACS for all 52 establishments of the Réseau universitaire intégré de santé de l’Université Laval (RUIS Laval). He is also active in the shared procurement process for advanced medical technology, worth a budget of $315 million, where he oversees the clinical and technical evaluation of the recommended equipment.

Since 1993, Dr. Lévesque has been on the Board of Directors of L’Association des radiologistes du Québec, first as Secretary and then as First Vice President. He has been particularly active in mammography projects (establishment of the Programme québécois de dépistage du cancer du sein), BMD, new technologies as well as fee negotiations. As a CAR Board member, Dr. Lévesque wishes to uphold radiologists’ rights as medical imaging specialists in Canada and ensure that their professional autonomy and their claims for a modern practice in radiology are respected.

Dr. Lévesque is married and the father of six children.
DR. EMIL LEE, VICE PRESIDENT

Dr. Emil Lee is a community radiologist with the Valley Medical Imaging group in the Fraser Valley, east of Vancouver and Head of the Department of Medical Imaging of Langley Memorial Hospital.

Dr. Lee is Past President of the British Columbia Radiological Society and the British Columbia Medical Association Section of Radiology, having served as President from 2010–2012. He has been a member of, and continues to serve on, many provincial, health authority and local committees.

Dr. Lee attended the University of British Columbia for medical school and his diagnostic radiology residency. After completing a fellowship in interventional radiology at the University of Iowa, he returned to British Columbia where he has been practicing since.

Dr. Lee is excited to begin his third term on the CAR Board and looks forward to continue bringing his experience as a provincial leader to the CAR as the organization works on navigating the challenges that face our specialty in Canada, increasing the profile of radiology on the national scene and strengthening the role of radiology in medicine.

Dr. Lee’s outside interests include travel, running, scuba diving, karate, skiing and debating with his wife and two children.

DR. MICHAEL BARRY, SECRETARY-TREASURER

Dr. Michael Barry received his medical and radiology training at Dalhousie University, finishing his program in 1987. Since then, he has practiced radiology at the Saint John Regional Hospital/Horizon Medical Network, serving as Chief of the radiology department for 11 years. He is also the Founding President of Atlantic Diagnostic Medical Services.

Dr. Barry is currently an Assistant Professor in Radiology at Dalhousie University. Advocating on behalf of the radiology profession is his passion and the prime reason behind his decision to get involved with the CAR Board. Dr. Barry has served on numerous political action committees both locally and nationally (at the Canadian Medical Association), along with being President of the Saint John Chamber of Commerce and Vice Chair of the Economic Development Agency for Southern New Brunswick. He serves on the Board of Canadian Health Solutions, an Atlantic Canadian Private Health Research initiative. He also led a rapid growth phase in Advanced Imaging (MRI) and PACS implementation in the late 1990’s and early 2000’s.

Dr. Barry has been married for 33 years to his wife Susan and is the proud father of four children. He resides in Rothesay, New Brunswick, where he carries an active practice in advanced imaging, general radiology, and occupational and third-party medicine. He is active in sports, including golf and tennis, and also has a number of personal interests relating to medicine and the private sector.
**DR. CHERI L. CANON**

Dr. Cheri L. Canon is a professor and Witten-Stanley Endowed Chair of Radiology at the University of Alabama at Birmingham, Department of Radiology. She completed her undergraduate training at the University of Texas at Austin, followed by medical school at the University of Texas Medical Branch. After completing her residency training in Diagnostic Radiology at the University of Alabama at Birmingham (UAB), she joined the faculty in the Abdominal Imaging section.

Dr. Canon served as the Radiology Residency Program Director and Vice Chair of Education for seven years. She served as the UAB School of Medicine Curriculum Committee Chair, during which time an organ-based curriculum was implemented. She then served as Senior Vice Chair of Operations and Division Director of Diagnostic Radiology before her appointment as Chair. She serves on the UAB Health Services Foundation Board of Directors.

Dr. Canon served as an oral examiner for the American Board of Radiology (ABR) for eleven years. She is a member of the ABR Oral Exam Committee for GI and Chairs the GI Committee for the ABR Certifying and Maintenance of Certification Examinations. She received the ABR Lifetime Service Award in 2013. She is the Chair of the American College of Radiology (ACR) Commission on Education and the ACR 2015 Program Committee. She sits on the ACR Board of Chancellors. Additionally, she sits on the Boards of Directors for the Association of University Radiologists, the American Institute of Radiologic Pathology, and the Academy of Radiology Research, on which she serves as Academic Council Chair. She is also active in the Birmingham community and is a member of the Birmingham Rotary Club.

**DR. JEFFREY CHANKOWSKY**

A native of Montreal, Dr. Jeffrey Chankowsky practices at the McGill University Health Center, specializing in Neuroradiology, Head and Neck Imaging and Spine Intervention. He obtained his medical degree from McGill in 1993 and completed residency in 1998. After a fellowship at Emory University in Atlanta, he returned to Montreal and has been working at the McGill University Health Centre since 1999. He holds an appointment as Associate Professor.

Firmly dedicated to medical education, Dr. Chankowsky held the position of Radiology Residency Program Director for 9 years (2006-2015), after which he transitioned to the position of Associate Chair, taking responsibility for undergraduate, residency and fellowship training at McGill. He is an active member of many McGill committees focusing on Postgraduate Medical Education and the challenges of CBME. He is also a Specialty Director at the Steinberg Center for Simulation and Interactive Learning.

An active supporter of the Royal College, Dr. Chankowsky is an Accreditation Surveyor, a member of the Examination Committee, a founding member of the Working Group for the Creation of the Interventional Radiology Residency Program, and holds the RAC4 position in the National Specialty Committee for Diagnostic Radiology since 2010.

In addition to University Hospital practice, Dr. Chankowsky regularly participates in locum tenens in various provinces, keeping in touch with the issues encountered in general radiology practice in rural areas of Eastern Canada. He has worked in four provinces and has deeply enjoyed the experience.

Outside of Medicine, Dr. Chankowsky has been married for 14 years and has two daughters. He fully enjoys weekends at the cottage and biking.
Dr. Carolyn Flegg received her medical degree from the University of Saskatchewan. Following her radiology residency training at Queen’s University in Kingston, Ontario, she completed a fellowship in Oncology Imaging through McMaster University at the Henderson Hospital site in Hamilton, Ontario.

In 2007, after working at the Henderson Hospital for a year following her fellowship, Dr. Flegg returned home to Saskatchewan, where she joined Associated Radiologists in Saskatoon. While her practice encompasses all areas of general diagnostic radiology, her primary field of interest is oncology imaging, particularly breast, thyroid and gynecological imaging.

In 2009 and 2010, Dr. Flegg served as the Clinical Head for the Department of Medical Imaging of the Saskatoon Health Region. She is currently the Medical Director of the Breast Health Centre at Saskatoon City Hospital and also serves as a member of the Residency Education Committee for the radiology residency program at the University of Saskatchewan.

Dr. Scott Harris is currently working as an Associate Professor in Diagnostic Imaging and as Site Chief for Cardiothoracic Imaging at the Health Sciences Centre in St. John’s, Newfoundland and Labrador. In addition, he is the Vice President of the Newfoundland and Labrador Association of Radiologists.

In 2007, Dr. Harris completed a radiology residency at Memorial University and subsequently completed a cardiac imaging fellowship at the Mayo Clinic in Rochester, Minnesota, the following year. Since returning to Newfoundland, he has been actively involved in the development of a cardiac imaging program as well as the residency program, through both the selection committee and the development of the cardiothoracic component of the curricula.

Dr. Harris is happy to continue as a member of the CAR Board and to work with colleagues from across the country to strengthen the role of imaging in healthcare.

Dr. Daniel Lindsay received his medical degree from the University of Manitoba and is a Fellow of the Royal College of Physicians and Surgeons of Canada. He has an active staff appointment at the Health Sciences Centre in Winnipeg and is the medical director of diagnostic imaging at multiple rural hospitals in Manitoba.

Dr. Lindsay has served on the Doctors Manitoba Strategic Planning Task Force as well as on the Board of the College of Physicians and Surgeons of Manitoba as its President. He is Diagnostic Imaging Consultant to the Manitoba Quality Assurance Program, Past President of the Manitoba Association of Radiologists, and has served on the board of multiple community service organizations.

Dr. Lindsay has been a vocal proponent for the acquisition of appropriate diagnostic imaging equipment and for the development of competency assessment tools now in use in Manitoba. His commitment and continued support to the medical community has been recognized by his colleagues, earning him the prestigious Doctor of the Year Award in 2012 from Doctors Manitoba.

Dr. Lindsay was the sole radiologist at the Canadian military-run trauma hospital in Kandahar during five deployments. He received several medals of distinction, rarely awarded to civilians, for his work in Afghanistan.

Dr. Lindsay is an advocate of ongoing professional education and competency assessment. He lives in a bilingual province and works actively at perfecting his French. With a reputation for promoting an open-door policy and consistently supporting all hospital physicians, he encourages the active participation of radiologists in a collaborative team approach with the goal of delivering exceptional patient care.
**DR. JONATHAN MANDEL**

Dr. Jonathan (Jon) Mandel is a dual-certified radiologist and nuclear physician. He received his medical degree from, and completed a dual residency in radiology and nuclear medicine at, the University of Toronto in 2004 and 2010, respectively.

Dr. Mandel held an academic position at Western University in London, Ontario, for his first three years of practice, and was a partner with London X-Ray Associates. He helped develop a clinical research program for Canada’s first combined PET/MR system, with particular interest in prostate cancer hybrid imaging and image-guided intervention.

Dr. Mandel is presently Medical Director of Diagnostic Imaging at the Oakville-Trafalgar Memorial Hospital and Nuclear Medicine Lead with Halton Healthcare Services, in Oakville, Ontario.

Outside work, Dr. Mandel enjoys spending time with his wife and son, reading, and getting involved in his community.

---

**DR. ANDREW MASON**

Dr. Andrew Mason is currently a staff radiologist in the Medical Imaging Department at Ridge Meadows Hospital in Maple Ridge, British Columbia.

After his radiology residency training at the John Radcliffe Hospital in Oxford, United Kingdom, Dr. Mason went on to complete a one-year thoracic imaging fellowship and a further year as an Assistant Professor at the University of Maryland in Baltimore. In 1995, he became the head of the Thoracic Radiology section at St. Paul’s Hospital in Vancouver before moving to his current position in 2002. He has also completed a mini-fellowship in musculoskeletal imaging and is interested in MSK ultrasound. He was a Royal College examiner in 1999-2000. He is currently the Board Chair for the CAR.

Dr. Mason is engaged in local projects addressing the interface between family practice and radiology in terms of utilization and appropriateness. As a community radiologist, he enjoys the challenge of working with the CAR to help all radiologists deliver timely and relevant imaging or image-guided therapy to every Canadian.

Dr. Mason is married and has two children.

---

**DR. LAURENCE PÉLOQUIN**

Dr. Laurence Péloquin obtained her medical diploma from McGill University in 2002. Following her residency training in diagnostic radiology at the Université de Montréal, she completed her fellowship training in oncologic breast and abdominal imaging at Memorial Sloan-Kettering Cancer Center in New York.

In July 2008, Dr. Péloquin joined the Radiology Department at the Centre hospitalier de l’Université de Montréal in both the breast and abdominal imaging sections. Actively involved in teaching, whether as member of the Université de Montréal radiology teaching program committee, in everyday practice or in the residents’ preparation for the Canadian examination, Dr. Péloquin was also named pedagogical leader with the specific mandate to review and improve evaluation criteria and methods for radiology residents.

Dr. Péloquin’s principal field of interest is oncologic imaging, particularly gynaecological and genitourinary imaging, areas in which she is involved in interdisciplinary projects with members from other medical specializations (radiation oncology as well as medical oncology and surgical services). She is presently working on a project which aims to modify computed tomography protocols in oncologic patients to reduce radiation dosage to patients.

The elder of eight siblings, Dr. Péloquin is a team worker and enjoys being a CAR Board member to carry through projects that are deemed important by the members of the Association. Her personal pursuits include playing the violin, cycling, and cross-country skiing. She also loves travelling and taking cooking classes, especially in international cuisine.
**DR. ROBERT SEVICK**

Dr. Robert (Rob) Sevick is a professor of radiology and clinical neurosciences and Head of the Department of Radiology at the Cumming School of Medicine of the University of Calgary. He is also Medical Director of Diagnostic Imaging for the Calgary Zone of Alberta Health Services.

Dr. Sevick obtained his medical degree from the University of Alberta in 1984. This was followed by a rotating internship at St. Michael’s Hospital in Toronto, residency in diagnostic radiology at the University of Calgary and two years of fellowship training in neuroradiology at the University of California, San Francisco. He has been in practice in Calgary since 1991.

Dr. Sevick is best known for his contributions to neuroradiology and MR imaging. He has served in a number of leadership roles in radiology and neuroradiology, both locally and nationally, including Chair of the Examination Board in Diagnostic Radiology and Chair of the Neuroradiology Specialty Committee for the Royal College of Physicians and Surgeons of Canada (RCPSC). Dr. Sevick is currently Chair of the Committee on Specialties and a member of the Education Committee of the RCPSC. He is a member and former Chair of the Canadian Heads of Academic Radiology and a member of the Board of Directors of the Canadian Radiological Foundation.

**DR. GIUSEPPE TARULLI**

Dr. Giuseppe Tarulli is a Toronto radiologist specializing in interventional radiology, mammography, cross-sectional imaging, magnetic resonance imaging, bone mineral densitometry, echocardiography and women’s health. He completed his undergraduate studies at the University of Toronto, St. Michael’s College of Arts and Sciences; his medical training at the University of Padua, Italy; and his residency in internal medicine and radiology at St. Michael’s Hospital in Toronto.

Dr. Tarulli is well-known as a strong exponent of high-quality patient care and access to modern radiology services. He was President of the Ontario Association of Radiologists (OAR) for several years as well as the Vice-Chair of the Ontario Medical Association section on Diagnostic Imaging. Dr. Tarulli is a diagnostic imaging assessor for the College of Physicians and Surgeons of Ontario and also served as a former President of the medical staff. He is responsible for the creation of the OAR’s Continuing Medical Education (CME) program, which has become Canada’s largest medical imaging CME program for radiologists and technologists. He is also a co-founder of the Canadian Bone Mineral Densitometry Facility Accreditation Program that has accredited one-third of the DXA units in Ontario since its inception.

Dr. Tarulli has worked in all practice settings, including an academic practice in Hamilton and a major community hospital in Toronto, as well as in a number of physician-owned Independent Health Facility clinics. He is the author of several publications.

Dr. Tarulli is married and has three children, two of which are currently training to be diagnostic radiologists.
DR. MITCHELL WILSON
Dr. Mitchell Wilson is a second-year radiology resident at the University of Alberta in Edmonton. Prior to residency, Mitch completed his doctor of medicine and undergraduate work in neuroscience, both at the University of Alberta. Mitch’s current academic interests include diagnostic and interventional neuroradiology.

Mitch has received several awards for his academic and community-based leadership roles, including the 2015 CAR/CRF Leadership Scholarship for further training through the Radiology Leadership Institute. He is looking forward to serving as the Resident Representative while continuing progress on the newly formed CAR Resident Section, established under his predecessor, Dr. Kari Visscher.

Mitch enjoys spending time with his family and friends, keeping active with hockey and running, as well as travelling.

DR. JASON WONG
Dr. Jason Wong is an interventional radiologist working as a partner of EFW Radiology. He is based at the tertiary care Foothills Medical Centre in Calgary and is a Clinical Associate Professor at the Cumming School of Medicine at the University of Calgary.

Dr. Wong completed his medical degree and radiology residency at the University of Calgary. Following this, Dr. Wong completed an interventional radiology fellowship at Stanford University School of Medicine, in California, where he also did a mini cardiac imaging fellowship.

Dr. Wong is the President Elect for the Canadian Interventional Radiology Association (CIRA) and has been on the CIRA board since 2011. He continues to serve on many other local and provincial committees. Additionally, Dr. Wong is heavily involved in teaching medical students, residents, and fellows at the University of Calgary. He was the fellowship director for the Department of Radiology of the University of Calgary from 2008-2014, and has been an active member of its Residency Program Committee since 2007. Dr. Wong is a current examiner at the Royal College of Physicians and Surgeons of Canada.

Dr. Wong’s practice is focused on aortic interventions, oncologic treatments, venous disease, and cardiovascular imaging.

Dr. Wong enjoys spending time with his wife Seline and their two sons, Logan and Luke. The family can be seen skiing, golfing, boating, or catching a hockey or lacrosse game.
